### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior arts fail to teach or fairly suggest a method for using a floating gate transistor having an amorphous silicon carbide insulator which includes the steps of "storing data by changing a charge of the floating gate electrode", "reading data by detecting a current between a source and drain in a substrate", "and "refreshing data based on data charge retention time of the floating gate transistor that depends upon the barrier energy at an interface of the floating gate electrode and the gate insulator".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Viet Nguyen whose telephone number is (703) 308-4897.
